

## Self Introduction Metaphor Speech

3-5 minutes

Introduce yourself to the class: give us your broad and basic information at first, name, where you are from, your major/career, your family. Then choose some interest, hobby, or skill of importance to you, that is also a metaphor for characteristics about yourself. Using a visual aid (for example, a baseball mitt if you play baseball), talk about your inner characteristics using the metaphor of your hobby. If you are a dancer, bring your dancing shoes, and discuss how dancing reflects more about you. Do you play the guitar? Bring your guitar and tell us how the guitar and/or guitar playing is similar to your own personality or character. See guidelines for the personal experience speech for more information; this speech is an alternative to the personal experience speech.
