

CLASSROOM TEACHING OBSERVATION SUMMARY
for

PROFESSOR KAREY PERKINS

Review year: 2006-2007

CLASS OBSERVED: SPEECH 275

It was obvious to me that Karey was very prepared for this class. She worked hard at providing all the information needed for students to give their next speech. She combined the use of lecture, film, music, speeches that have been given by important people in the history of the U.S. It was obvious that the students were engaged in the presentation and the material being presented.

The class flowed with a lot of information being provided. Karey does an excellent job in the classroom.
